

Flock Care Checklist

Organize daily feeding, watering, egg collection, cleaning, and observation so flock care stays simple and consistent.

Daily Flock Routine

Use the morning and evening columns to keep daily care tasks quick and repeatable.

Task	Morning	Evening	Egg Count / Collected	Notes
Feed checked / refilled				
Fresh water provided				
Quick health check				
Eggs collected				
Coop / run security checked				
Bedding spot-cleaned				
Treats / enrichment given				
Other				

Health Observation Reminders

Watch for changes in appetite, behavior, droppings, mobility, and appearance.

- | | |
|---|---|
| ☐ Comb and wattles look normal | ☐ Eyes and nostrils are clear |
| ☐ Droppings appear normal | ☐ Feathers and skin look healthy |
| ☐ Walking / balance looks normal | ☐ Birds are eating and drinking well |

DAILY FLOCK NOTES

Note unusual egg production, weather stress, pecking issues, or any bird that needs closer attention.

Coop Care & Health Log

Track weekly coop tasks, flock health concerns, and the follow-up steps that help you stay ahead of problems.

Weekly Coop Care

Use this section for the recurring chores that keep the coop cleaner, safer, and more comfortable.

Week / Date	Egg Total	Bedding Changed	Feed / Water Supplies	Coop / Run Task	Notes / Follow-Up

Health Observation Log

Track any bird that needs extra attention and the action you took.

Date	Bird	Issue Observed	Action Taken	Still Monitor?	Notes

REMINDER

If you notice severe lethargy, breathing trouble, injury, or major appetite changes, seek veterinary guidance promptly.
